

# JDN MONOCRANE

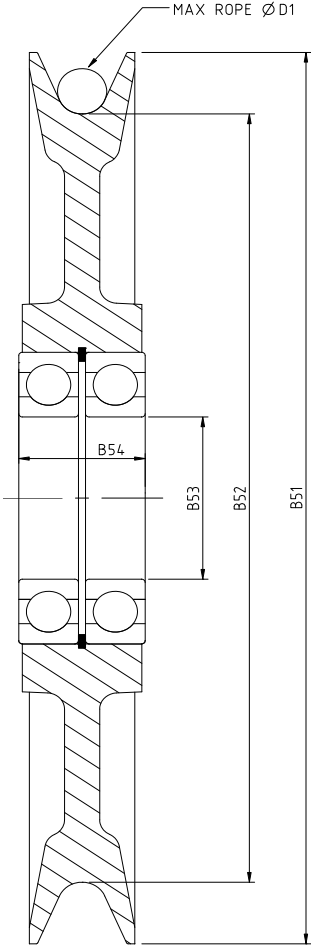

## SHEAVES

**JDN MONOCRANE** S series sheaves are manufactured in Ductile iron, Grade 500-7 (GGG-50), providing a balance between strength, ductility and wear resistance.

**NOTE:** 110 & 160 dia Sheaves are made from mild steel

**JDN MONOCRANE** have the expertise to design and manufacture sheaves to suit your specific application.

Please contact our office for technical advice.
